PROFESSION SUMMARY

I am an enthusiastic IT graduate with hands-on experience in web development. Proficient in programming languages like JavaScript, with additional skills in technical support and problem-solving gained through internships and academic projects. Known for a strong collaborative mindset, leadership in academic settings, and a commitment to continuous learning. Eager to contribute to innovative IT projects, develop new skills, and support a dynamic, forward-thinking team. Seeking a software development role where I can leverage my foundational knowledge to drive organizational success.
